An event hosted by:

The challenges you will face in the process of integrating the workforce in both entities are many and complex. While you would expect your merger to bring about the desired growth, a majority falls short of their goals and objectives. While some failures can be explained by financial and market factors; a substantial number can be traced to mismanaged human resource (HR) people issues and processes.

People are key to making your merger work and it is the HR related challenges like cultural ignorance, leadership/management disputes, loss of key talent and the inability to manage change, which are the basic reasons why your merger may fail to deliver the desired results.

Know The Primary Obstacles You'll Encounter And How To Overcome Them:

1. **Due diligence** – identifying and managing key legal and people risks
2. The impact of **TUPE**
3. **Business continuity** throughout the acquisition process
4. **Project planning:** harmonisation and integration

We have advised numerous high profile clients on M&A, restructuring, redundancy and reorganisations.

This event will be a great way to get to grips with employment law implications and employee practices when managing change. We will assess the practical impact of a merger & acquisition. We'll discuss the lessons that can be learnt from some significant cases and restructures.
